- c) In the case of Cash Flow Statement, of the cash flows and changes in equity for the year ended on that date.

Basis for Opinion

We have conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the standalone Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the independence requirements that are relevant to our audit of the standalone financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe

that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the standalone financial statements.

Responsibility of Management for the IND AS Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance, total comprehensive income, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the accounting standards specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Ind As financial statement that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the Ind As financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are responsible for overseeing the company's financial reporting process.

Auditor's Responsibilities for the Audit of the IND AS Financial Statements

Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements,
 whether due to fraud or error, design and perform audit procedures responsive to those
 risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for
 our opinion. The risk of not detecting a material misstatement resulting from fraud is
 higher than for one resulting from error, as fraud may involve collusion, forgery,
 intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit
 procedures that are appropriate in the circumstances. Under section 143(3)(i) of the
 Companies Act, 2013, we are also responsible for expressing our opinion on whether the
 company has adequate internal financial controls system in place and the operating
 effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all

relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Other Matters:

Effects of COVID 19 -

The management does not foresee the need for any adjustment on account of COVID 19 in the financial statements as on March 31st 2022, as it does not significantly impact the current financial year as the company is into the business of Digital Platforms which is not adversely affected by Covid.

Since the situation is constantly evolving, as informed, the management is closely monitoring the situation and the overall effect of these events on the company and its operations. The management of the Company has carried out an assessment of the appropriateness of going-concern and other related aspects, and as on the date of approval of these financial results, it believes that there is no significant impact.

i. Recognition and measurement

All items of property, plant and equipment are measured at cost less accumulated depreciation and any accumulated impairment losses.

The cost of an item of property, plant and equipment comprises:

- a) its purchase price, including import duties and non-refundable purchase taxes, after deducting trade discounts and rebates.
- b) any costs directly attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by management.
- the initial estimate of the costs of dismantling and removing the item and restoring the site on which it is located, the obligation for which an entity incurs either when the item is acquired

Expenditure incurred after the property, plant and equipment have been put into operation, such as repairs and maintenance, are charged to the Statement of Profit and Loss in the year in which the costs are incurred.

If significant parts of an item of property, plant and equipment have different useful lives, then they are accounted for as separate items (major components) of property, plant and equipment. Any gain or loss on disposal of an item of property, plant and equipment is recognised in profit or loss.

Property, plant and equipment except freehold land held for use in the production, supply or administrative purposes, are stated in the balance sheet at cost less accumulated depreciation and accumulated impairment losses, if any

ii. Subsequent expenditure

Parts of an item of PPE having different useful lives and significant value and subsequent expenditure on Property, Plant and Equipment arising on account of capital improvement or other factors are accounted for as separate components only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. All other repairs and maintenance are charged to profit or loss during the reporting period in which they are incurred.

(d) Depreciation on Tangible Fixed Assets

Depreciable amount for assets is the cost of an asset, or other amount substituted for cost. Depreciation is recognised using straight line method as per useful life prescribed under Schedule II of The Companies Act, 2013 for the current financial year.

CIN: U74999MH2017PTC300940

Notes to Financial Statements as at and for the year ended 31st March 2022

Depreciation is charged on a monthly pro-rata basis for assets purchased or sold during the year. Gains and losses on disposals are determined by comparing proceeds with carrying amount. These are included in profit or loss within other gains/ (losses).

The useful life of PPE is the period over which PPE is expected to be available for use by the Group.

The Company has used the following useful lives to provide depreciation on its property, plant and equipments:

Particulars	Useful lives as per management's estimate (in years)
Office Equipments	5

Useful life of above property, plant and equipments are those prescribed under schedule II.

The Company reviews the residual value, useful lives and depreciation method annually and, if expectations differ from previous estimates, the change is accounted for as a change in accounting estimate on a prospective basis.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

(e) Intangible assets

Intangible assets acquired separately with finite useful lives are measured on initial recognition at cost. Following initial recognition, intangible assets are carried at cost less accumulated amortization and accumulated impairment losses, if any. Intangible assets are amortized on a straight line basis over the estimated useful economic life. The estimated useful life and amortization method are reviewed at the end of each reporting period, with the effect of any changes in estimate being accounted for on a prospective basis.

The useful lives of intangible assets are assessed as either finite or indefinite.

Intangible assets are amortized over their estimated useful life as follows.

Particulars	Useful lives as per management's
	estimate (years)
Computer Software	6

Intangible assets - software includes expenses which are incurred on development of software. Further development and improvement expenses following the launch date have also been capitalized. The basis for fulfillment of the basic criteria of recognition of asset i.e. future economic benefits will flow to the company is confirmed by management. CIN: U74999MH2017PTC300940

Notes to Financial Statements as at and for the year ended 31st March 2022

Date of Launch: 25th October, 2020

Intangible assets with indefinite useful lives are not amortized, but are tested for impairment annually, either individually or at the cash-generating unit level. The assessment of indefinite life is reviewed annually to determine whether the indefinite life continues to be supportable. If not, the change in useful life from indefinite to finite is made on a prospective basis.

Gains or losses arising from de-recognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognized in the statement of profit and loss when the asset is derecognized.

(f) Foreign currency translation

The functional currency of the Company is Indian Rupees which represents the currency of the primary economic environment in which it operates.

Foreign currency transactions are translated into the functional currency using the exchange rates at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions are generally recognised in profit or loss. Monetary balances arising from the transactions denominated in foreign currency are translated to functional currency using the exchange rate as on the reporting date. Any gains or loss on such translation, are generally recognised in profit or loss.

(g) Financial Instruments:

Financial assets and financial liabilities are recognised when the Company becomes a party to the contractual provisions of the instruments.

i. Initial Recognition and Measurement:

Financial assets and financial liabilities are initially measured at fair value. Transaction costs, that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss), are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs, directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss, are recognised immediately in the Statement of Profit and Loss.

ii. Classification and Subsequent Measurement

• Financial Assets:

The Group classifies financial assets as subsequently measured at amortized cost, or fair value through profit or loss (FVTPL) on the basis of both:

(i) Business model for managing the financial assets, and

CIN: U74999MH2017PTC300940

Notes to Financial Statements as at and for the year ended 31st March 2022

(ii) The contractual cash flow characteristics of the financial asset.

A Financial Asset is measured at amortized cost if both of the following conditions are met:

- (i) The financial asset is held within a business model whose, objective is to hold financial assets in order to collect contractual cash flows, and
- (ii) The contractual terms of the financial asset give rise on specified dates to cash flows, that are solely payments of principal and interest on the principal amount outstanding.

Such financial instruments are subsequently measured at amortized cost using the effective interest rate (EIR) method.

Other financial assets are classified and measured at fair value through profit or loss (FVTPL)

Financial Liabilities and Equity Instruments

a) Classification as debt or equity

Debt and equity instruments issued by a company are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

b) Equity instruments

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by the Company are recognised at the proceeds received, net of directly attributable transaction costs.

c) Financial liabilities

Financial liabilities are classified as measured at amortized cost or 'FVTPL'. A Financial Liability is classified as at FVTPL if it is classified as held-for-trading or it is a derivative (that does not meet hedge accounting requirements) or it is designated as such on initial recognition.

A financial liability is classified as held for trading if:

- It has been incurred principally for the purpose of repurchasing it in the near term; or
- On initial recognition it is part of a portfolio of identified financial instruments that the Company manages together and has a recent actual pattern of short-term profit-taking; or
- It is a derivative that is not designated and effective as a hedging instrument.

A financial liability other than a financial liability held for trading may be designated as at FVTPL upon initial recognition if:

CIN: U74999MH2017PTC300940

Notes to Financial Statements as at and for the year ended 31st March 2022

- Such designation eliminates or significantly reduces a measurement or recognition inconsistency that would otherwise arise;
- The financial liability forms part of a group of financial assets or financial liabilities or both, which is managed and its performance is evaluated on a fair value basis, in accordance with the Company's documented risk management or investment strategy, and information about the grouping is provided internally on that basis; or
- It forms part of a contract containing one or more embedded derivatives, and IND AS 109 permits the entire combined contract to be designated as at FVTPL in accordance with IND AS 109.

Financial liabilities at FVTPL are stated at fair value, with any gains or losses arising on remeasurement recognised in Statement of Profit and Loss. The net gain or loss recognised in Statement of Profit and Loss incorporates any interest paid on the financial liability and is included in the 'other gains and losses' line item in the Statement of Profit and Loss.

d) Other financial liabilities

Other financial liabilities (including borrowings and trade and other payables) are subsequently measured at amortized cost using the effective interest method, if applicable.

(h) Current income taxes and deferred tax:

The income tax expense or credit for the period is the tax payable on the current period's taxable income based on the applicable income tax rate for each jurisdiction adjusted by changes in deferred tax assets and liabilities attributable to temporary differences and to unused tax losses.

Current Tax:

Current income tax is measured at the amount expected to be paid to the tax authorities in accordance with the Income Tax Act, 1961 enacted in India and tax laws prevailing in the respective tax jurisdictions where the Group operates. The tax rates and tax laws use to compute the amount are those that are enacted or substantively enacted, at the reporting date.

The tax currently payable is based on taxable profit for the year. Taxable profit differs from 'profit before tax' as reported in the Statement of Profit and Loss because of items of income or expense that are taxable or deductible in other years and items that are never taxable or deductible.

Deferred Tax:

Deferred tax is recognised in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. Deferred tax is measured based on the tax rates and the tax laws enacted or substantively enacted at the balance sheet date. Deferred tax assets are recognised for all deductible temporary differences and the carry forward of any unused tax losses. Deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences and the carry forward of unused tax losses can be utilized, except:

Plexigo Entertainment Pvt Ltd (Erstwhile known as SAPJ Media & Entertainment Pvt. Ltd.) CIN: U74999MH2017PTC300940

Notes to Financial Statements as at and for the year ended 31st March 2022

- When the deferred tax asset relating to the deductible temporary difference arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss, or
- There is no probability for reversal of such Deferred Tax Asset / Liability in foreseeable future (Refer Note. 9.1 of Financial Statements).

The carrying amount of deferred tax assets are reviewed at each balance sheet date and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the assets to be recovered.

Deferred tax assets and deferred tax liabilities are offset, if a legally enforceable right exists to setoff current tax assets against current tax liabilities and the deferred tax assets and deferred taxes relate to the same taxable entity and the same taxation authority.

Current and deferred tax are recognised in the Statement of Profit and Loss, except when the same relate to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax relating to such items are also recognised in other comprehensive income or directly in equity respectively.

(i) Earnings Per Share

Basic earnings per share is computed by dividing the profit / (loss) after tax by the weighted average number of equity shares outstanding during the year. The weighted average number of equity shares outstanding during the year is adjusted for the events for bonus issue, bonus element in a rights issue to existing shareholders, share split and reverse share split (consolidation of shares).

Diluted earnings per share is computed by dividing the profit/ (loss) after tax as adjusted for dividend, interest and other charges to expense or income (net of any attributable taxes) relating to the dilutive potential equity shares by the weighted average number of equity shares considered for deriving basic earnings per share and the weighted average number of equity shares which could have been issued on conversion of all dilutive potential equity shares.

(j) Provisions, Contingent Liabilities and Contingent Assets: -

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that the Company will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

Long term provisions are determined by discounting the expected future cash flows specific to the liability. The unwinding of the discount is recognised as finance cost.

CIN: U74999MH2017PTC300940

Notes to Financial Statements as at and for the year ended 31st March 2022

Provisions are measured at the present value of management's best estimate of the expenditure required to settle the present obligation at the end of the reporting period. The discount rate used to determine the present value is a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The increase in the provision due to the passage of time is recognised as interest expense.

A present obligation that arises from past events, where it is either not probable that an outflow of resources will be required to settle or a reliable estimate of the amount cannot be made, is disclosed as a contingent liability. Contingent liabilities are also disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company.

Claims against the Company, where the possibility of any outflow of resources in settlement is remote, are not disclosed as contingent liabilities.

Contingent Assets are neither recognized nor disclosed in the financial statements.

(k) Cash and Cash Equivalents

Cash and Cash Equivalents in the balance sheet comprise cash at banks and on hand and short term investments with an original maturity of three months or less, which are subject to an insignificant risk of changes in value.

(l) Measurement of EBITDA

As per Guidance Note on Division II- Ind AS Schedule III to the Companies Act 2013, the Company has elected to present earnings before interest, tax, depreciation and amortization (EBITDA) as a separate line item on the face of the statement of profit and loss. The Company measures EBITDA on the basis of profit from continuing operations. In its measurement, the Company does not include depreciation and amortization expense, finance costs, finance income and tax expense.

(m) Significant Accounting Judgements, Estimates and Assumptions:

The preparation of FS, in conformity with the Ind AS, requires judgements, estimates and assumptions to be made, that affect the reported amounts of assets and liabilities on the date of the FS, the reported amounts of revenues and expenses during the reporting period and the disclosures relating to contingent liabilities as of the date of the FS. Although these estimates are based on the management's best knowledge of current events and actions, uncertainty about these assumptions

and estimates could result in outcomes different from the estimates. Difference between actual results and estimates are recognized in the period in which the results are known or materialise. Estimates and underlying assumptions are reviewed on an on-going basis. Any revision to accounting estimates is recognised prospectively in the current and future periods.

Notes to Financial Statements as at and for the year ended 31st March 2022

(i) Judgements:

In the process of applying the Company's accounting policies, the management makes judgements, which have the most significant effect on the amounts recognised in the FS.

(ii) Estimates and Assumptions:

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of asset and liabilities within the next financial year, are described below. The Company based its assumptions and estimates on parameters available when the FS were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the Company. Such changes are reflected in the assumptions when they occur.

(iii) Recognition of Deferred Tax Assets:

Availability of future taxable future profit against which the tax losses carried forward can be used as disclosed in note (h) above

(iv) Recognition and Measurement of Provisions and Contingencies:

Key assumptions about the likelihood and magnitude of an outflow of resources as disclosed in Note (j) above.

8.5 RECOGNITION OF PREFERENCE SHARES AS PER IND AS 32:

A financial liability is any liability that is:

(a) a contractual obligation :

(i) to deliver cash or another financial asset to another entity; or

(ii) to exchange financial assets or financial liabilities with another entity under conditions that are potentially unfavourable to the entity; or

(b) a contract that will or may be settled in the entity's own equity instruments and is:

(i) a non-derivative for which the entity is or may be obliged to deliver a variable number of the entity's own equity instruments; or

(ii) a derivative that will or may be settled other than by the exchange of a fixed amount of cash or another financial asset for a fixed number of the entity's own equity instruments. For this purpose, rights, options or warrants to acquire a fixed number of the entity's own equity instruments for a fixed amount of any currency are equity instruments if the entity offers the rights, options or warrants pro rata to all of its existing owners of the same class of its own non-derivative equity instruments.

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities.

"Thus based on the analysis of the aforementioned definitions r.w the terms of issue of preference shares (refer 7.4 above), it is pertinent to note that the Preference shares are although having the option to convert into equity shares, but the option shall be exercised by issue of a VARIABLE NUMBER OF EQUITY SHARES as per the FMV as on the date of conversion. Thus, as per the above definition, the said instrument does not satisfy the 'fixed for fixed' condition and therefore it qualifies as a Financial Liability and not as equity (Similarly the said instrument also does not satisfy the conditions laid down in para 16 (a) and (b) of IND AS 32 to qualify as Equity).

Further, it is pertinent to note that the company is using its own equity instrument as a substitute to cash payment without carrying any risk of the underlying equity. Therefore, such a contract does not evidence a residual interest in the equity of the company. Thus, it does not qualify as an equity instrument and nor as a compound instrument.

The Preference shares are accounted at Amortised Cost less cost of issue of the shares (mainly the cost for increase in authorised capital of the company and stamp duty on issue of shares). The same shall be unwinded at IRR to arrive at the maturity value at the end of the term of 7 years.

Further, the preference shares are non-cumulative in nature, therefore the impact of coupon rate will be considered in the year of declaration and payment of dividend by the company. The effective interest rate shall be calculated based on the IRR on account of the share issue expenses incurred by the company."
