“We believe that the decision to demonetize high denomination currency notes is a positive step to bolster the economy in the long run,” said **Sanjay Gaikwad, Founder and Managing Director**. *“In the short-term, the media and entertainment sector is one of the most adversely impacted sectors. In this challenging environment, UFO demonstrated resilience and delivered growth in advertisement revenues. While demonetization has slowed down growth in the second half of fiscal 2017 making it difficult to achieve our advertisement growth target, we are extremely confident of delivering on our long term growth plans.”*

“This is a positive set of results, both operationally and financially given the difficult market conditions, highlighting the strength of our business model,” said **Kapil Agarwal, Joint Managing Director**. *“Advertisement revenues achieved mid-single digit growth despite extreme pressure across sectors and dented advertising spends. We believe that the impact is transitory and the early signs of recovery are already visible. Going forward, re-monetization along with the implementation of GST are expected to drive overall economic growth and UFO is well positioned to benefit from higher advertising spending by the Government, Corporates and Hyperlocal advertisers.”*
