# ● JUNE QUARTER Nestle India profit rises 11% to ₹487 cr

PRESS TRUST OF INDIA  
New Delhi, July 28

FMCG MAJOR Nestle India on Tuesday reported an 11.14% increase in net profit at ₹486.60 crore for the quarter ended June 2020, helped by increase in sales.

The company, which follows January-December financial year, had posted a profit of ₹437.79 crore in the same quarter a year ago, Nestle India said in a BSE filing.

Its net sales rose 1.96% to ₹3,041.45 crore during the quarter under review from

₹2,982.83 crore in the corresponding period of last fiscal.

Commenting on the results, Nestle India chairman and MD Suresh Narayanan said, "The past three months have witnessed volatility, uncertainty and stresses that we had never imagined before nor experienced. This led to disruptions across the value chain of the company that has impacted our results, though we have built back momentum strongly as we ended the quarter."

Nestle India's domestic sales rose 2.55% to ₹2,907.74 crore in the June quarter against ₹2,835.37 crore a year ago.

Exports declined 9.32% to ₹133.71 crore against ₹147.46 crore in the corresponding quarter last year.

Total expenses rose marginally to ₹2,436.14 crore from ₹2,414.35 crore.

During April-June, Nestle India witnessed over two-fold jump in sales from e-commerce, while 'out of home' sector performance was subdued. "We delivered strong per-

formance in the 'e-commerce' channel which grew by 122% this quarter and now contributes 3.6% to domestic sales," Narayanan said.

"Demand in all 'Out of Home' consumption channels experienced a sharp decline due to the lockdown," he added.

However, in the 'home consumption' segment, Nestle's brands such as EVERYDAY Dairy Whitener, Nestle+ Milk and other milk based portfolio, NESCAFÉ Classic and NESCAFÉ Sunrise performed well this quarter, he said.

"MAGGI also witnessed solid growth towards the end of the quarter after initial supply constraints," he said.

The company has accelerated its "digital engagements across key parts of our portfolio, put out innovative campaigns to engage the consumers...while ensuring judicious application of marketing spends in line with the current business scenario", Narayanan said.

Besides, the company was also helped by lower tax rates during the quarter.

# ITC completes acquisition of Sunrise in ₹2,150-cr all-cash deal

FE BUREAU  
Kolkata, July 28

CIGARETTE-TO-FMCG-to-hotel major ITC has completed its acquisition of spices-maker Sunrise Foods in an all-cash deal valued at ₹2,150 crore as the diversified conglomerate looks to augment its product portfolio and significantly scale up its spices business across the country.

The company on May 23 entered into a share purchase agreement (SPA) to acquire 100% of the equity share capital of Sunrise Foods (SFPL), engaged mainly in the business of spices under the trademark 'Sunrise'.

**Sunrise Foods turnover during the last fiscal was ₹591.50 crore, while its net worth stood at ₹242.89 crore as on March 31**

"The acquisition was completed on July 27," ITC said in a stock exchange filing late

Monday evening. On the cost of the acquisition, the company said it has acquired shares of SFPL at an "upfront consideration of ₹2,150 crore on a cash-free, debt-free basis".

"In addition, the sellers are entitled to contingent consideration of an amount not exceeding ₹150 crore, which is payable upon Sunrise achieving mutually agreed operational and financial milestones, over a period of two years," it said.

Before this acquisition, Sunrise was a Kolkata-based family owned firm. SFPL's turnover was ₹591.50 crore during the last fiscal, while its net worth stood at ₹242.89 crore as on March 31, 2020.

# Excess milk: Private dairies in Maha likely to pay farmers reduced procurement prices

NANDA KASABE  
Pune, July 28

PRIVATE DAIRIES IN Maharashtra are likely to pay reduced procurement prices to farmers at the rate of ₹18 per litre from next month, thanks to the problem of excess milk in the state due to the lockdown situation.

Senior officials associated with the industry pointed out that the procurement prices in the state varied across the state. Dairies in Kolhapur pay farmers ₹26 per litre while others end up paying farmers ₹25 per litre. The procurement prices for private dairies vary between ₹19 per litre, ₹20 per litre and ₹21 per litre. But the private dairies are now likely to pay farmers only ₹18 per litre due to the lack of demand, sources said.

Dairies in the state have already threatened to stop pro-

urement of milk from farmers once a week due to the lack of clarity on the government scheme to procure 10 lakh litres of milk from farmers every day. Under the scheme that was announced after the lockdown, Mahananda — the state government's dairy products company — was to procure 10 lakh litre from farmers every day to convert the same into skimmed milk powder (SMP). According to Ranjit Deshmukh, chairman, Mahananda, although the target was to collect 10 lakh litre on a daily basis, the dairies managed to collect 5.5 lakh litre per day. Mahananda has collected 6 crore litre under the scheme till date, he said.

The scheme, which has been extended twice ended on Tuesday. Deshmukh said a ministerial meeting has been called on Wednesday to decide the fate of the scheme.

Dairies have threatened to stop procurement of milk from farmers once a week due to lack of clarity on the govt scheme to procure 10 lakh litre from farmers every day

# High-frequency indicators point towards V-shaped recovery: CII

PRESS TRUST OF INDIA  
New Delhi, July 28

INDUSTRY BODY CII on Tuesday said high-frequency indicators are showing a material improvement compared with multi-year lows seen in April, and pointing towards a V-shaped recovery after the economy suffered on account of lockdown amid the coronavirus pandemic.

A clutch of indicators including GST collections, railway freight traffic, petrol consumption, peak power demand, electronic toll collections, among others, have all mirrored the incipient signs of recovery, it said.

"Though still early, these are indeed promising signs, pointing towards a V-shaped recovery in the immediate aftermath of the lockdown," the chamber said.

CII director-general Chandrajit Banerjee said that in order to nurture the nascent signs of recovery, it is important to mitigate the uncertainties that are currently prevailing regarding the restrictions.

"Corporates are unable to plan beyond a horizon of a few weeks, affecting all operations," he said.

Even though the early signs of recovery are encouraging, it is critical to build on these, by deploying all the policy levers, he said and added the business activities must be allowed to function, by removing the uncertainties associated with imposing 'mini lockdowns', he said.

The CII officials further said although it is not possible to predict the course of the pandemic, a dashboard approach, triggering predictable responses based on the progression of infections, can reduce uncertainty and boost both consumer and industry confidence, which in turn will support demand and investment recovery.
