Onion exports... HIGH MOISTURE CON-

nataka has reduced shelf life of the staple vegetable, causing fears of supply constraints by September. As per the department of consumer affairs, the modal retail prices of onion rose from ₹20 perkg since the beginning of the year, to ₹30 per kg on Saturday. The rating agency Crisil in its report recently had stated that retail onion prices are expected to hit ₹60-70 per kg next month. The benchmark prices at Lasalgaon, Maharashtra, the hub of the country's onion trade, rose by 50% to ₹2,050/quintal on Saturday, from ₹1,370/quintal on August 2. Two months back the prices were ruling around ₹950 per quintal. To curb price rise, the government recently announced selling 0.3 MT of onion in the open market from its buffer stock. India exported a record 2.5 MT of onion 2022-23, an increase of 65% from the previous fiscal. Bangladesh,

Tried & tested...

IN APRIL 2013, India's TVS

Motor Company and Germany's BMW Motorrad signed a longterm deal to manufacture sub-500cc motorcycles for global markets. This collaboration has resulted in the development of four products on the 310cc engine platform—manufactured at the TVS plant in Hosur, Tamil Nadu. The first motorcycle was TVS Apache RR 310 (launched in December 2017), followed by BMW G 310 R and BMWG 310 GS (July 2018), and BMWG 310 RR (July 2022).

All four have collectively sold 140,000 units in markets, including India, the EU, the US, Latin America, Japan and China. Of these, BMW Motorrad has sold more than 21,000 motorcycles in India and exported over 50,000 motorcycles. KN Radhakrishnan, director

& CEO, TVS Motor Company, said the partnership is a testament to common values of BMW and TVS on innovation, quality, customer delight, engineering prowess and a focus on delivering globally-aspirational products. "These four motorcycles are available in more than 100 countries, and with the expansion of this partnership towards future technologies and sustainable mobility solutions, we are in discussions to

expand our manufacturing network beyond India to cater to our growth, which includes the recently-unveiled BMW CE 02,3 Radhakrishnan said.

The CE 02 is an electric twowheeler powered by two split 2 kWh lithium-ion battery packs and has a claimed range of 90 km.Som Kapoor, EY India Automotive, Future of Mobility leader (consulting), and partner, told FE that BMW and TVS have natural synergies. "TVS helped BMW with the 310cc platform which was not easily possible for BMW to build in Europe. Thanks to this tie-up, BMW was able to leverage Indian engineering prowess, to make a bike not just for India, but also for global markets where buyers are increasinglylooking for midsize motorcycles," he said. "What TVS got from BMW was global brand value, and what BMW got from TVS was frugal engineering."

Saket Mehra, partner, Grant Thornton, said the auto sector, globally, is going through a major transformation, driven by increasing focus on electrification and alternative fuel technologies, realignment of global supply chains, volatility in raw material procurement, and vol-

ume growth due to rising disposable incomes. "With these evolving dynamics, it is important to have the right partnerships and tie-ups in place," he said. On why the TVS-BMW partnership is working so well he added that a key factor is the strategic fit between both the partners. "Two companies entering a partnership must have a strong alignment on partnership objectives, structure and defined roles, and have the clear cost and strategic benefits identified," he said. "We've noticed some partnerships fall through due to changes in business or regulatory dynamics, and hence agility and address ing business and industry risks becomes a key element of these partnerships. A partnership should be strategically focused on enhancing competitiveness by leveraging strengths, sharing insights and upholding a sense of equitable competition."

Coming to the Toyota Suzuki partnership, both have now sold more than 250,000 cars (the tie-up happened in Tokyo in 2018, and the first car was launched in 2019) Recently, Toyota India launched the midsize MPV Rumion (rebadged Maruti Suzuki Ertiga). It was the fifth model to be exchanged between Toyota and Suzuki in four years.
